

## March 2012

### Are You Ready For Visitors?

Visitor season is fast approaching. Have you taken a hard, objective look at the outside of your business lately? I mean REALLY taken a look at it, like a visiting tourist might? Does the front of your business reflect “pride of ownership” with sparkling clean windows and a nice paint job? Is your sidewalk swept and free of litter?

Now go to the front door...what do you see? Is your business cluttered and messy? What would you think if you were a visitor and walked through that door for the very first time? Is your merchandise displayed in an attractive manner that makes people want to linger and shop? Perhaps you have a restaurant, a hotel or other service business. Be objective...would you want to patronize your business if you were the visitor?

Let’s all do our part to make our community successful. We all have an obligation to make Cloverdale a welcoming place where visitors want to spend more time, and let’s face it, the more time they spend the more money they spend. So much can be accomplished if we all work toward one specific goal. If we show our visitors that we are a community with pride...why wouldn’t they want to stay another day or two?

## New Recycling Law to Take Effect July 1, 2012

Assembly Bill (AB)341 requires all businesses that generate four (4) or more cubic yards of waste per week to recycle. Businesses include, but are not limited to, non-profits, strip malls, government offices and schools. The law also applies to multi-family dwellings of five (5) or more units, regardless of the amount of waste generated.

Businesses and multifamily dwellings are required to separate recyclable materials from their solid waste stream and either self-haul, subscribe to a hauler, and/or allow the pickup of recyclables. Sonoma County's recycling effort targets single-stream recycling where cardboard, paper, bottles, and cans are mixed together.

Your recycling program must be in place by July 1, 2012 in order to comply with state law. If you are already recycling at your business or multifamily dwelling contact us at [recycling@sonoma-county.org](mailto:recycling@sonoma-county.org) or call (707) 565-3375. Please contact by March 16, 2012.

If you haven't established recycling service, contact us as there is assistance available to you. The State estimates that the commercial sector still generates nearly three-fourths of the solid waste in California. There is no additional cost for single-stream recycling services for garbage company customers. To see who is allowed to provide single-stream recycling services for our area visit: [www.recyclenow.org/business/commercial.asp](http://www.recyclenow.org/business/commercial.asp)

## Hiring People with Disabilities Into Your Workforce Makes Good Business Sense

The California Department of Rehabilitation can work with you to pre-screen candidates and help you to enhance productivity while providing employees who are highly skilled and ready to work. The DOR can help with recruitment and selection, reasonable accommodations, accessibility to programs and services and publications, referrals and resources.

As an employer you may be able to reduce your Federal tax liability by as much as \$2,400 per hire. Small businesses qualify for up to \$5,000 in tax credits for disabled accessibility and \$15,000 credit annually for removing physical, structural and transportation barriers. Funding is also available to provide on-the-job training for qualified job seekers.

According to a study by DuPont, performance levels for employees with disabilities are consistent with those of their non-disabled peers.

For more information on these and other aspects of employing people with disabilities contact DOR at 916-558-5400 or [www.dor.ca.gov/workplace](http://www.dor.ca.gov/workplace)
